"Kerlite Art"

Works of art, Kerlite slabs the blank canvas on which Cotto d'Este has painted beauty and charm: that's Wonderwall.

A creation never seen before, for the first time the artistic wall decoration meets the ultra-thin ceramic porcelain tile: countless ideas and design suggestions to transform the spaces in which we live in a magical and exciting way. Twelve wonderful decorations with deep textures and elegant design, printed in high definition.

Large slabs measuring 1x3 meters, in stoneware with fibreglass mesh, thin and light like wallpaper but strong, resistant to humidity, safe and guaranteed over time, perfect for interior design projects which dare to give architectural spaces a unique and prestigious feel.

Thin Porcelain Tile / Panels..... a product that changes the concept of tiling.

Thin porcelain can be installed directly on the former covering, irrespective of the whether it is a marble, wood, cotto, ceramics or other compact materials. The benefits of not only saving time but also money, because with thin porcelain you don't have to modify doors, there is no dust, no removal expenses, noise or debris disposal. These advantages are priceless.

Samples:

If you would like to place a sample request, please email samples@specceramics.com.

Samples requested before noon will be processed the same day, anything after will ship the following business day. SpecCeramics ships via UPS.

We also have a thin box that is a sampling of some of the products in the catalog, please be sure to send an email to info@specceramics.com to request one.

Price Quotes:

Please send any price inquiries you may have to insidesales@specceramics.com.

Misc.:

Pictures often do not translate the beauty of the color and texture of a tile. We suggest getting a sample for a more accurate representation of the tiles.

Don't see a color or a size you think would work with your project? We source many additional thin porcelain tiles with samples readily available.
