PLACE

SHALE

CONTEMPORARY DESIGN AND NATURAL LOOK

24"x24"  12"x24" SHALE
The material offers a genuine natural feel, also thanks to the surface structures that have a richly varied movement.
AMBER

WIDE RANGE OF COLORS AND HUES
Each piece is rich in colors and graphics that stand out when installed on floors, showing the aesthetic variability typical of the most precious slates.
RUST

STYLE AND FUNCTIONALITY IN PUBLIC SPACES
Caesar’s porcelain stoneware is an elegant and functional material, also for the floors of public spaces.
Almond

Bathroom walls for impressive effect

Wall_12"x24" Almond_12"x24"_12"x24" Brickmix Almond
Floor_12"x24" Almond_18"x36" Almond
Thanks to its 3 sizes, 2 types of mosaics and harmonious color combinations, the Place range allows to interpret bathroom ambiances for major aesthetical effect.

COLORED-BODY PORCELAIN TILES - RECTIFIED, ONE CALIBER

COLORED-BODY PORCELAIN TILES are produced minimizing the color difference between the glaze and the body. Nevertheless, the design is visible only on the surface.

Color reproductions may vary from actual products.

Caesar reserves the right to modify the products illustrated in this catalogue for reasons of production or to improve quality. Samples are purely indicative. Packaging and weights may vary for production reasons. Contact our sales department when ordering.

In case of running pattern installation, Caesar recommends a maximum 33% offset.

Caesar warrants that our products meet or exceed the requirements of ANSI, specification ANSI A137.1:2012, as shown in our Tile Performance Data sheets.

Average values referred to the last two years of production and related to the matt finish of the product. Values relate to the matt finish of the product and to tests carried out by certified external laboratories, whose results are available upon request at Headoffice.

Be sure to use the same caliber tiles.

Color reproductions may vary from actual products.

* Due to the intrinsic nature of porcelain stoneware tiles, please note that the coefficient of friction may vary within the same production lot or from one production lot to the other. Caesar products can become slippery when wet. We recommend to always keep the surface dry.

### Technical Feature

<table>
