DUO
We celebrate colour, texture and the creativity to combine them.

Duo is the duality of gloss & matt within the same pieces, the richness of the glossy lush glazes and the maticity in perfect balance over a porcelain body.

You can also match your Duo with a Solo, tone over tone for the most refined tastes or play with colourful coral, turques, cyan and black.

Endless unique and different pieces to bring your ideas to life.

WAREHOUSING
In order to guarantee the characteristics of the finish the product must be kept in its original packaging until the time of fixing. If the product is likely to be stored for a long period of time it should be suitably covered.

TILE FIXING
To ensure the products adhere correctly to the surface, it is essential to use specific adhesive and grouting material. This must also be suitable for the environment they will have to withstand. Fitting with traditional mortars does not ensure good adhesion.

Due to the nature of the material there may be dimensional variations between pieces. Therefore, all types of joints must be planned and carried out correctly: structural, perimeter, expansion and installation joints. Fitting tiles without joints is not advisable from any technical point of view as this may lead to various problems. For an optimal result we advise to use 2 mm (0.08”) grout.

MAINTENANCE AND CLEANING
Once the materials have been fitted, it is advisable to remove any remaining adhesive and grouting material by using a commercial descaling product designed especially, diluted with water. The descaling product must not remain in contact with the surface to be cleaned for more than 5 minutes. As a general guideline, powder detergents should not be used, not wire wool or abrasive materials. Generally a sponge will be sufficient with warm water and liquid neutral soap. Then rinse with plenty of clean water.

ENDLESS PATTERNS
Each piece is unique and unrepeatable, you will not find two equals.
