IT Per conferire alle superfici ceramiche ampia versatilità applicativa, Iris Ceramica Group si avvale di molteplici tecnologie produttive (es: gres porcellanato in grande formato, gres porcellanato tradizionale e tecnica full-bodied). Ne consegue che lo stesso materiale, realizzato attraverso tecnologie distinte in impianti produttivi dedicati, può presentare variazioni cromatiche e/o estetiche.

EN In order to ensure that ceramic surfaces have a wide range of application possibilities, Iris Ceramica Group uses various production technologies (e.g., large format porcelain stoneware, conventional porcelain stoneware, and the full-bodied technique). This means that a material that is manufactured using different

technologies in specialized production facilities may vary in color and/or appearance.

DE Um keramischen Oberflächen eine größtmögliche Anwendungsvielfalt zu verleihen, setzt Iris Ceramica Group mehrere Produktionstechnologien ein (z.B. das großformatige Feinsteinzeug, traditionelles Feinsteinzeug und die Full-Body-Durchfärbung). Daraus folgt, dass ein und dasselbe Material, das mit unterschiedlichen Technologien in hoch spezialisierten Produktionsstätten hergestellt wird, Abweichungen in Farbe und/oder Aussehen aufweisen kann.

FR Pour conférer aux surfaces céramiques une grande polyvalence

d'application, Iris Ceramica Group utilise de nombreuses technologies de production (par exemple, grès cérame grand format, grès cérame traditionnel et technique full-bodied). Par conséquent, le même matériau, réalisé avec des technologies différentes dans des usines dédiées, peut présenter de variations chromatiques et/ou esthétiques.

ES Para conferir a las superficies cerámicas una amplia versatilidad aplicativa, Iris Ceramica Group se vale de numerosas tecnologías productivas (ej: gres porcelánico en formato grande, gres porcelánico tradicional y técnica full-bodied). Por consiguiente, el mismo material, realizado a través de tecnologías diferentes en plantas de producción

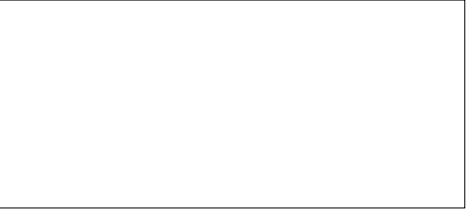

específicas, puede presentar variaciones cromáticas y/o estéticas.

RU Для обеспечения высокой универсальности в применении керамических поверхностей Iris Ceramica Group использует разнообразные производственные технологии (например, производство крупноформатного керамогранита, традиционного и полнотелого керамогранита).
