SUSTAINABILITY

ENERGY EFFICIENT

Tile's inherent thermal mass reduces peak heating and cooling, which helps moderate temperature swings in your home.

HEALTH

NATURAL INGREDIENTS

Tile is made of clays and other naturally-occurring minerals and does not contain chemicals with potential adverse health effects (pvc, voc, formaldehyde, plastic etc...)

SAFETY/DURABILITY

SCRATCH AND DENT RESISTANT

Tile is strong, hard and resistant to most type of scratches. Tile also, being an extremely dense material, doesn't fear any denting damage, like many others flooring materials do.

SAFETY/DURABILITY

FADE AND UV RESISTANT

SUSTAINABILITY

FLOOR HEAT FRIENDLY

SUSTAINABILITY

VERY LONG SERVICE LIFE

Tile when properly installed and maintained can last for decades.

SUSTAINABILITY

COST SAVING OVER TIME

HEALTH

PREVENT BACTERIA GROWTH

Tile is completely inhospitable to bacteria. That means no mold or mildew, and a healthier home for you.

HEALTH

ZERO ALLERGENES

Tile is both hard and impervious therefore inhospitable to dust mites, bacteria, fungi, mold and other irritants.

HEALTH

ZERO SMOKE DEVELOPMENT

Tile never gives off toxic fumes, even when exposed to fire.

The color of tiles printed in this catalog may differ from actual tiles. Tile color reproductions in this catalog are representative only. Slight tone and shade variations are inherent in porcelain tiles. Before selecting a color, we recommend that you contact your local representative, who will provide you with a sample piece of the requested tile.

This porcelain tile product is manufactured with a V3 shade variation. Remember that the amount of color as well as the texture of each piece may vary from tile to tile. Inspect the product immediately upon delivery and select tiles from many boxes during installation to minimize and blend any possible color difference.

RECOMMENDED USE

Mood Urban matt finish is recommended for indoor floors, walls, countertops, and outdoor walls in commercial and residential applications. The use of Mood Urban matt finish is not recommended for outdoor floors (for that application use Grip finish or Frontier20). Landmark recommends an offset no greater than 30%, if a staggered pattern is required for tiles of 20" inches or longer. Landmark recommends the use of leveler for a proper installation.

CARE AND MAINTENANCE

Do not apply any wax or sealer to the product after installation. Regular cleaning is the best way to keep tiles looking good. Use clean, hot water (add household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. Please visit [lcusa.com](https://www.lcusa.com). For further information regarding the care and maintenance of Landmark products.

WARRANTY

Landmark guarantees that its products will meet or exceed the performance specifications set out in ANSI A137.1- 2012 and in the performance specifications section of the Landmark general catalog. For more information, please visit our website at [lcusa.com](https://www.lcusa.com).
