<p>V0 Very Uniform appearance. Pieces of the same shade value are very uniform and smooth in texture. They can be measured for small color differences and are in compliance with the color uniformity requirements of tables 6-10 (ANSI A137.1-2012)</p>	<p>V1 Uniform Appearance. Differences among pieces from the same production run are minimal.</p>	<p>V2 Slight Variation. Clearly distinguishable texture and/or pattern within similar colors.</p>	<p>V3 Moderate Variation. While the colors and/or textures present on a single piece of tile will be indicative of the colors and/or texture to be expected on the other tiles, the amount of colors and/or texture on each piece may vary significantly. It is recommended that the range be viewed before selection.</p>	<p>V4 Substantial Variation. Random color and/or texture differences from tile to tile, so that one tile may have totally different colors and/or textures from that on other tiles. Thus, the final installation will be unique. It is recommended that the range be viewed before selection.</p>

For information about installation and cleaning of Caesar products, please consult our general catalogue or the website www.caesarceramicsusa.com.

Color reproductions may vary from actual products.

Caesar reserves the right to modify the products illustrated in this catalogue for reasons of production or to improve quality. Samples are purely indicative. Packaging and weights may vary for production reasons. Contact our sales department when ordering.

In case of running pattern installation, Caesar recommends a maximum 33% offset.

Caesar warrants that our products meet or exceed the requirements of ANSI, specification ANSI A137.1: 2012, as shown in our Tile Performance Data sheets.

FOCUS

CUTTING-EDGE TECHNOLOGY

Cutting-edge technology: the best quality and aesthetic performance.

INSPIRED BY TOP QUALITY WOOD

Whisper captures and reproduces the appearance of authentic wood in the best manner possible while eliminating defects and imperfections.

WEAR RESISTANT EASY CLEANING

Top quality porcelain stoneware has excellent resistance to wear and scratching, stain-proof, easy to clean and perfectly sanitizable.

CAPTURING NATURE'S VARIETY IN HARMONY

The tiles have a particularly diverse appearance. Installed surfaces boast a natural and attractive variability.

CLEAR NATURAL DETAILS

The presence of details and distinctive features of wood give the installed floor a great feeling of authenticity.

WOOD AND STONE EFFECT

Whisper has an elegant and subtle look and can be matched with other surfaces, materials and colors with the utmost ease.

CLEANING PROCEDURES

WHISPER

- After 36/48 hours, when both the floor and the grouts have completed their first drying phase and before the real phase of the floor has yet to begin, it is necessary to proceed with the cleaning of the tiled surface using a "padding" action acid detergent, diluted according to the manufacturer's instructions.
- For areas heavily stained with grout, it is necessary to repeat this operation once or twice, increasing the percentage of water.
- The excess grout residue must be removed so that it does not dry and stick on the surface. It is necessary to change the cleaning water frequently and rinse well.
- Care must be taken on inlaid, polished and anti-slip products; for the latter in particular, the use of a floor-washing machine combined with the action of an acid detergent helps reach the spaces between adjacent tiles and clean them properly.
- If such a cleaning procedure is not carried out, or if such cleaning is carried out too late, the grout residue creates an extremely absorbent film, which holds dirt, making the surface difficult to clean: in this case, Ceramiche CAESAR S.p.A. will not be liable for any damage caused to the surface.
- We would like to remind you that porcelain stoneware is a product with excellent technical features which allow for high grade of mechanical wear and resistance to acids (except for hydrofluoric acid and its derivatives) and alkalis, features which are added to a high aesthetic quality.
- Ordinary maintenance must be carried out using specialist detergents to remove stains but these detergents must not leave a wax, film or membrane residue.
- Rinsing well with plenty of clean water is a fundamental part of the cleaning procedure, therefore we advise against the use of products which state that they "do not need rinsing".
- For more detailed and updated information, please consult the website www.caesarceramicsusa.com, or contact our sales department.

SUSTAINABLE MIND

Maximum concern for the environment

From our plant

The **brand new production facilities** in the USA are built in compliance with the most stringent standards in term of environmental protection, safety of workers and reduction of energy consumption.

to your project.

By choosing Caesar Ceramics USA, the end user will be sure to purchase **durable, safe and green floor and wall tiles**: being extremely durable, they do not call for any chemical treatment, varnish or special detergent. They do not release dust or other substances, even when subject to high pedestrian traffic.

HPD
(Health Product Declaration®)

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards.

By means of its declaration, Caesar USA adheres to the standard.

LEED
(Leadership in Energy and Environmental Design)

Caesar Ceramics USA is a member of US Green Building Council (USGBC).

The LEED program, promoted by the USGBC, is the most widely used green building rating system in the world. Available for virtually all building, community and home project types, LEED provides a framework to create healthy, highly efficient and cost-saving green buildings.

TILE PERFORMANCE DATA

COLORED-BODY PORCELAIN TILES - RECTIFIED
Classification in accordance with ANSI A137.1: 2012 (P1 class).

TECHNICAL FEATURE	ASTM	VALUE REQUIRED ANSI A 137.1-2012	CAESAR AVERAGE VALUE
 Facial dimension	ASTM C-499	± 0,25% or ± 0,03 in	
 Wedging	ASTM C-502	± 0,25% or ± 0,03 in	In accordance to ANSI A 137.1-2012
 Warpage diagonal	ASTM C-485	± 0,4% or ± 0,07 in	
 Warpage edge	ASTM C-485	± 0,4% or ± 0,05 in	
 Thickness	ASTM C-499	RANGE: 0,040 inch max (1 mm)	In accordance to ANSI A 137.1-2012
 Water absorption	ASTM C-373	≤ 0,5%	Passed "impervious tiles" Class P1
 Breaking strength	ASTM C-648	≥ 250 lbs (≥1113 N)	≥400 lbs
 Freeze thaw	ASTM C-1026	No damages	In accordance
 Chemical resistance	ASTM C-650	As reported	Unaffected
 MOHS hardness			6
 Dynamic Coefficient of Friction*		0,42	Test currently under execution

WHISPER
PORCELAIN TILE

Average values referred to the last two years of production and related to the matte finish of the product.
Values relate to the matte finish of the product and to tests carried out by certified external laboratories, whose results are available upon request.
Be sure to use the same caliber tiles. Color reproductions may vary from actual products.
* Due to the intrinsic nature of porcelain stoneware tiles, please note that the coefficient of friction may vary within the same production lot or from one production lot to the other. Caesar products can become slippery when wet. We recommend to always keep the surface dry.
