# PLASTER 2.0

***Plaster 2.0 is MILE®stone's first entirely carbon neutral product. It is a beautiful concrete design paired with a boldly hued 6"x24" that replicates the artistic layering of venetian plaster. Used for centuries because of its lasting durability, Plaster 2.0 is a modernized, sustainable version from MILE®stone. Plaster 2.0 is available in 6"x24", 12"x24", 16"x32", and 32"x32" rectified, as well as mosaics and bullnose. Its twelve colors offer you the versatility to create the diverse space of your dreams. It's time to take responsibility with the bold, sophisticated, balanced Plaster 2.0***
